

DREAM DESTINATION SERIES

ROYAL CARIBBEAN

Royal Caribbean blends adventure, luxury, and comfort to offer a vacation uniting excitement and connection. For empty-nesters, it's time to reignite romance—imagine sunrise coffees on your private balcony, intimate dining at specialty venues like Empire Supper Club, and serene afternoons in adults-only Solarium spaces.

For multigenerational families, the cruise becomes a shared experience: grandparents can relax poolside or enjoy Broadway at sea shows and incredible water shows in the aqua theater, while the little ones can enjoy supervised areas just for them or dive into water parks, the FlowRider surf simulator, VR bungee trampolines, and thrilling skywalks on select ships. Royal Caribbean leads the industry in guest-focused innovations:

North Star observation capsule - a retractable glass “balloon” 300 ft above sea level, delivering unforgettable views

RipCord by iFLY - the first skydiving simulator at sea

Ice skating rink - watch beautiful ice shows or strap on skates and put on your own exhibition

Bionic Bar - robotic bartenders mixing cocktails on select Oasis and Quantum-class ships

Virtual balconies in interior cabins - streaming real-time ocean views

VOOM Edge-to-cloud Starlink Wi-Fi - offering reliable connectivity—even for Zoom calls

Multi-neighborhood design - featuring tailored areas for families, children, and adult retreats

Perfect Day at CocoCay - private island and Caribbean's largest waterparks inviting enjoyment for all ages

Diverse dining across 35+ venues - from casual to fine-dining—catering to every palate

With Royal Caribbean you get all this and some of the most spacious cabins in the industry. Want the whole family to stay together? Check out the multi-deck Ultimate Family Suites with slides connecting the levels. Royal Caribbean has been leading the industry in innovation since 1968. Take a cruise and see what the Royal Caribbean difference is all about.
